ROADWARE CONCRETE REPAIR PRODUCTS

ROADWARE 10 MINUTE CONCRETE MENDER™

ROADWARE MICRODOWELING TECHNOLOGY

Road-tough repairs for concrete floors, decks, slabs and surfaces. Just flood cracks, spalls, joints, or holes with Roadware 10 Minute Concrete Mender™, MatchCrete™, or Roadware 10 Minute Flexible Cement II.™

In minutes you’ll be back in service with a tough polymer concrete that stays in place permanently.
**ROADWARE MatchCrete™ CLEAR**

**Match colors.**
By adding small amounts of dry color pigment and sand, many different colors can be made. Use colored sand for deeper color effect.

**Exterior Repairs**
MatchCrete™ Clear cures clear and will stay clear under sunlight. MatchCrete™ Clear is a structurally solid material. Use caution when repairing exterior concrete or re-cracking may occur.

**Polished Concrete**
MatchCrete™ Clear may be polished in several hours. Use before or after polishing for repairs that will not distract from the polished concrete look.

**Moisture**
Concrete and sand need to be surface dry before application.

**Exposed Aggregate**
MatchCrete™ Clear cures clear so repairing exposed aggregate concrete is easy.

71105 50ml cartridge w/needle tip
5150 50ml Application Gun
71300 300x300ml cartridge
71020 Two Gallon Kit
1036 Static Mixer SQ 24 element
5300 600ml Application Gun

**ROADWARE FLEXIBLE CEMENT II™**

**Exterior Repairs**
Use Flexible Cement II™ to repair cracks and protect control joints in parking structures, bridge decks, loading docks, runways, and many types of structural concrete.

**Control Joints**
Use in industrial floors to protect saw-cut control joints from wheel traffic damage.

**Cove Joints**
Use Flexible Cement II™ to seal cove joints where the floor meets a structural wall.

**High Traffic**
Repairs are tough and can handle heavy industrial traffic.

**Electrical Pooding**
Seal electrical loops and embedded lighting systems.

**Thresholds**
Repair concrete thresholds with high thermal differentials.

**Moisture**
Flexible Cement II™ is tolerant of surface moisture when applied. Concrete should be as dry as practical to insure a good bond.

**Concrete Bonding**
Flexible Cement II™ is an excellent flexible adhesive for bonding metal, wood, and synthetic materials to concrete. Use to bond moldings and tuck strips to concrete floors. Bonds asphalt to concrete.
